

Power

RELIABLE POWER FOR
CRITICAL MISSIONS

Generators

Up to 400 kW trailer mounted, self-contained sound insulated double wall fuel tank, easy to use controls, convenience outlets.

Up to 60 kW voltage selector switch, for single or three phase.

500 to 2000 kW self contained, in an ISO container, sound insulation, double wall fuel tank, control panel, mounted on a chassis.

Loadbanks

100 kW suitcase loadbanks and up to 2500 kW units mounted on a trailer or drop deck.

Transformers

Up to 2500 kVA dry and oil filled, multi tap transformers.

Automatic Transfer Switches (ATS's)

Up to 2000 amp with camlok connections.

Uninterrupted Power Supplies (UPS'S)

- Up to 100 kVA battery units
- Up to 900 kVA rotary units, in an ISO container, with ATS's, air conditioning, mounted on a chassis

Distribution

Breaker panels, breaker disconnects, spider boxes, quad boxes and extension cords.

Temperature Control

CONSISTENT CLIMATE CONTROL

Chillers

Up to 550 tons open frame or in an ISO container with chassis. Air or water cooled.

Air Conditioners (DX)

From 1 ton spot coolers up to 90 ton air conditioners.

Cooling Towers

Up to 533 ton self contained, modular design.

Dehumidifiers

Up to 5000 cfm refrigerated or desiccant.

Heaters

- Up to 130 kW electric heaters with return air capability
- Up to 3 1/2 million BTU natural gas or propane units, direct fired

Air

KEEPING THE PRESSURE ON

Instrument Quality Air Compressors

Up to 1600 cfm after cooled and filtered, engine driven or with electric motor.

High Pressure Air Compressors

Up to 500 psig engine driven.

Oil Free Air Compressors

Up to 1550 cfm oil free air, after cooled, engine driven or with electric motor.

Dryers

Up to 3000 cfm refrigerated or desiccant.

Water

PRIMED AND READY TO GO

Automatic Self Priming Pumps

Up to 12 inch or 7000 gpm, vacuum priming, solids handling with back flush valve. Engine driven with sound reducing canopy.

High Pressure Self Priming Pumps

Up to 12 inch or 750 ft head, vacuum priming, solids handling with back flush valve. Engine driven with sound reducing canopy.

Overcome Adversity.
